## Objectives and effectiveness

**Edit** 

#### Call objectives

Project support for Finnish CSOs is part of the implementation of Finland's development policy and of the Government Programme.

CSOs' development cooperation projects increase the diversity and impact of Finland's development cooperation.

CSOs and their partners strengthen the capacity of civil society actors in developing countries, support the civic space, endorse an enabling environment for civil societies and strengthen democracy.

The projects support the achievement of the Sustainable Development Goals (SDGs) of the UN 2030 Agenda.

#### Purpose

Describe the project briefly. In the description, answer the following questions:

- What is being done in the project and why?
- Which population group's rights will be promoted by the project?
- Which parties are implementing the project?
- What immediate results do the activities aim to produce?

Please complete carefully, the Ministry will use this project description when publishing information about its government grant decisions.

#### DAC sector (purpose of aid)

You will find more detailed descriptions of the DAC sectors (CRS codes) on the project support website.

Select no more than three main categories in which the project seeks to attain results. If you are unsure of the sector, select the sector/sectors that, in your opinion, best describe the project. First select the main sector, such as education, health, or civil society. After that you can view more detailed descriptions of each main sector. Define these sectors' percentage value based on their share of the project's results targets. The percentage must be 100% in total.

## 1. DAC sector Choose... Percentage (1. DAC sector) 2. DAC sector Choose... Percentage (2. DAC sector) % 3. DAC sector Choose... Percentage (3. DAC sector) % **Technical cooperation** 1 The project involves the provision of resources with the main objective of accumulating human capital (knowledge, Does the project involve technical cooperation? skills, technical knowledge, productive abilities). Technical cooperation typically No includes activities such as hiring of experts, education and training, and Yes research. Usually it involves technical aid. but supplies related to the aid activity are Sustainable Development Goals also included in this category. Select sustainable development goals or targets (max. 5) that the project contributes to. Read more: Sustainable development 1. Sustainable Development Goal (primary) \* Choose... 2. #### Finland's development policy goals

The project must promote at least one of the priorities of Finland's development policy as specified in the Government Programme. These priorities are improving the position and rights of women and girls; education; sustainable economy; democratic societies; and climate change. The outcome charts and indicators of Finland's development policy are available on the website of the Ministry for Foreign Affairs.

Main priority (select one) *	Select one of the five priorities of Finland's

#### Risk management

Additional information:

- Risk management policy
- Norm: Reporting, investigating and communicating suspected misconduct in development cooperation
- Finland's policy on the prevention and elimination of sexual exploitation, abuse and harassment in development cooperation
- International sanctions
- High-risk country as defined by the EU Directive (2015/849)
- FATF "black and grey" lists

Applicant's and local partners' risk management \*

() Describe the risk management and responsibilities of the applicant and local partners at the different project stages (planning, implementation and monitoring). Indicate how the operating environment of the project is taken into account in risk management. Explain how the project takes into account the risks of financial misuse and sexual harassment and abuse.

In addition, describe how the applicant will ensure that the entities benefiting from the use of the grant are not effectively owned or controlled by a sanctioned entity in an individual case. If the activities will target a country that is a high-risk country as defined by the EU Directive (2015/849) or the Financial Action Task Force (FATF), outline the anti-money laundering and counter-terrorism financing measures.

## Cost estimate and funding

Edit

#### Terms and conditions related to the financing of the project

The maximum annual amount of grants may not exceed 85 per cent of a project's total expenses approved by the Ministry. In order for the grant to be used, the Finnish recipient of the grant must cover at least 15 per cent of the project costs by providing evidence in its accounts on a financial own contribution covering at least 7.5 per cent of the project's total expenses. For the remainder, up to 7.5 per cent, the government grant recipient must present verifiable amount voluntary work and/or donations of goods and services equalling the amount in Euros both when applying for a government grant and in annual reporting. For more information, see the section on resources made available without payment (section 3.5 of the standard terms and conditions). To calculate the government grant and own contribution, use the **calculator** provided. The calculator opens in the Downloads folder.

For projects whose main objective is to promote the rights of persons with disabilities, the maximum amount of the Ministry's grant is at most 92.5 per cent of the project's annual total expenses, and the government grant recipient's financial own contribution per year must be at least 7.5 per cent in the accounts. *Disability inclusion must be entered as the project's DAC principal objective on the tab 'Objectives and Effectiveness'*. To calculate the government grant and own contribution, use the **calculator intended for disability projects**. The calculator opens in the Downloads folder.

#### **Expenses of grant-financed activity**

Please indicate in the table below the breakdown of costs incurred in Finland by cost type for the entire duration of the project. You can read more about the cost categories in the **State Treasury's chart of commercial accounts** (Chapter 4 Operating expenses, in Finnish).

Specify the key/significant expense items for each type of cost in the relevant 'Additional information' field. More detailed budget justifications are given below under Project resources.

Enter the total amount of the part of the grant to be redistributed to local partners under 'Redistributed part'. The breakdown of local partner costs is provided on a separate form (a mandatory appendix).

Enter the general costs of the project (formerly administrative costs) in 'Overheads'. A maximum of 10 per cent of

24.1.2024 6.55 Calls / Discretionary government grant for development cooperation projects of Finnish CSOs in 2025 - 2028 (project support) -... the project's total costs (including overheads) may be accepted as project overheads.

Resources made available without payment (such as voluntary work and/or donations of goods and services) are not entered in the cost table below. They are reported below under 'Total expenses of grant-financed project' and are part of 'Total own contribution of total project costs'.

Expense category	Total sum	Additional information
Personnel expenses	€	
Premises	€	
Outsourced services	€	
Travel	€	
Raw materials and consumables	€	
Machinery and installations	€	
Overheads	€	
Other	€	
Part to be redistributed	€	
Total cost estimate	0 €	

### Total expenses of grant-financed project

Enter below the project's total costs, which also take into account the resources made available without payment.

To calculate the total costs and the amount of government grant and own contribution of the project, use the calculator or the calculator intended for disability projects. Enter the fair value of the resources made available without payment (up to 7.5% of Total cost estimate \* the total project costs). For more Copy here the amount from 'Total cost information about how to define the fair estimate' in the table 'Expense category' ie, see the section on Resources made vailable without payment. € Give more detailed justifications under Resources made available without Resources made available without payment \* Enter zero if there are no resources available without payment or if the project € is a disability project. Total costs (total cost estimate + resources made available without payment) \* 1 Enter the sum of the cost estimate and the resources made available without payment. If the project does not have resources made available without payment or if the project is a disability project, the project's

total costs are the same as the total cost

#### Financing plan for grant-financed project

Enter the amount of government grant applied for in the column 'Discretionary government grant to be applied for own activities' in the table below. To calculate the amount of government grant, use the **calculator** or the **calculator intended for disability projects**.

The data in the column 'Own contribution' is automatically entered.

PLEASE NOTE The calculation of the remaining own contribution does not take into account the resources made available without payment presented by the applicant. They are reported under 'Total expenses of grant-financed project' and are part of 'Total own contribution of total project costs'.

PLEASE NOTE The row 'External financing, total' in the table does not apply to projects funded through project grant and can be ignored.

#### Government grant to be applied

For own activities	€
Government grant to be applied (total)	0 €
Own contribution	
Eligible costs for the grant-financed activity	0 €
Grant applied for your own activities	0 €
External financing, total	0 €
Remaining own contribution	0 €
Overall financing plan for grant-financed project	
Enter the shares of discretionary government grant and own contribution of the total project costs.	Enter the share of the government grant of the project's total costs (total cost estimate + resources made available without payment).
To calculate the amount of government grant and own contribution of the project, use the calculator or the calculator intended for disability projects.  Total costs (€) *   Check that the sum of the figures corresponds to the sum entered in the field Total costs of grant-financed project.	The maximum annual amount of grants may not exceed 85 per cent of a project's total expenses. For projects whose main objective is to promote the rights of persons with disabilities, the maximum amount of the grant is at most 92.5 per cent of the project's annual total expenses.
Share of discretionary government grant (€) of total project costs *   Share of total own contribution (€) of total project costs   •	contribution of the project's total costs.  The government grant recipient's total own contribution must cover at least 15 per cent (financial own contribution and the resources available without payment) of the total project costs.  For projects whose main objective is to promote the rights of persons with

## Distribution of discretionary government grants across the project's implementation years

Report the distribution of the government grant across the years in which the project is implemented. Use the **calculator** or the **calculator intended for disability projects** to make the annual calculations for the project, although in the table below, you need to report the annual amount of the government grant only.

Check that the sum of the figures corresponds to the sum entered in the field 'Share of discretionary government grant (€) of total project costs'.

Enter zero if the project is not implemented in the year in question.

#### Own contribution

#### Financial own contribution

The recipient of the grant must cover at least 15 per cent of the project costs by providing evidence in its accounts on a financial own contribution covering at least 7.5 per cent of the project's total costs.

For projects whose main objective is to promote the rights of persons with disabilities, the government grant recipient's financial own contribution per year must be at least 7.5 per cent in the accounts and it cannot be covered by resources made available without payment.

2000 / 2000

### Resources made available without payment

A resource made available without payment refers to a resource received by the government grant recipient, which is allocated to the grant-financed project and for which the government grant recipient does not need to pay.

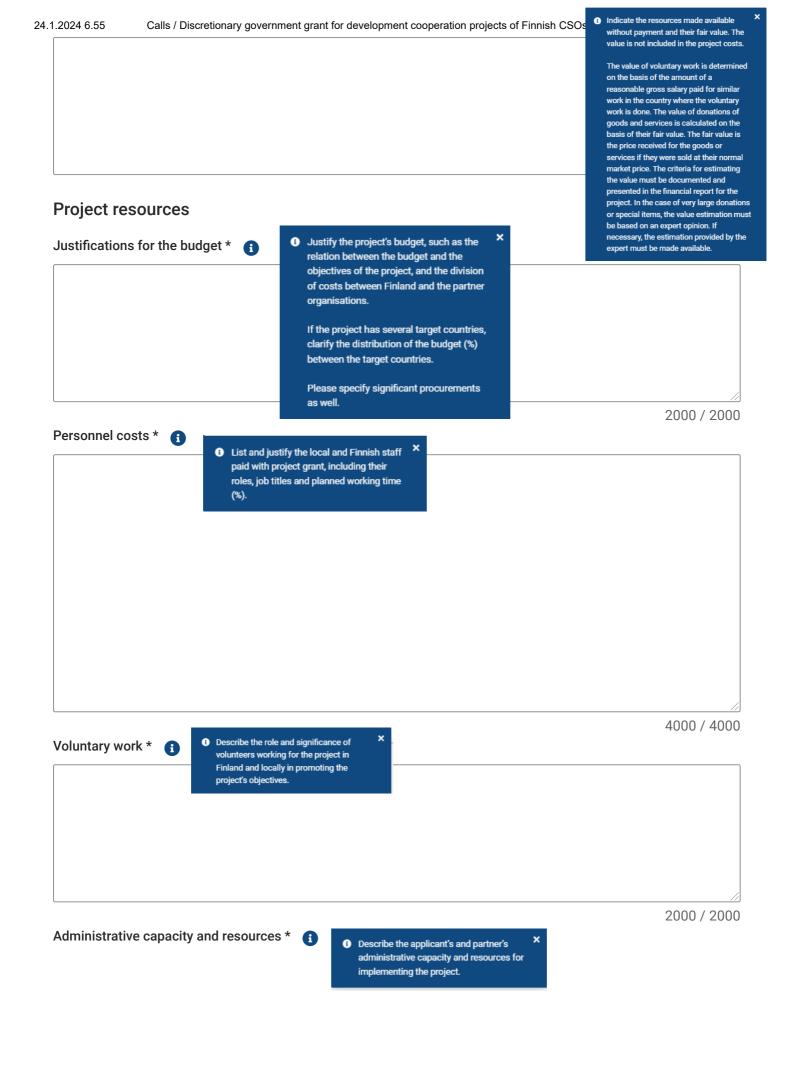

The resource made available without payment may be, for example, communal or voluntary work allocated to the project by a third party. It may also mean the government grant recipient's free access to equipment or premises.

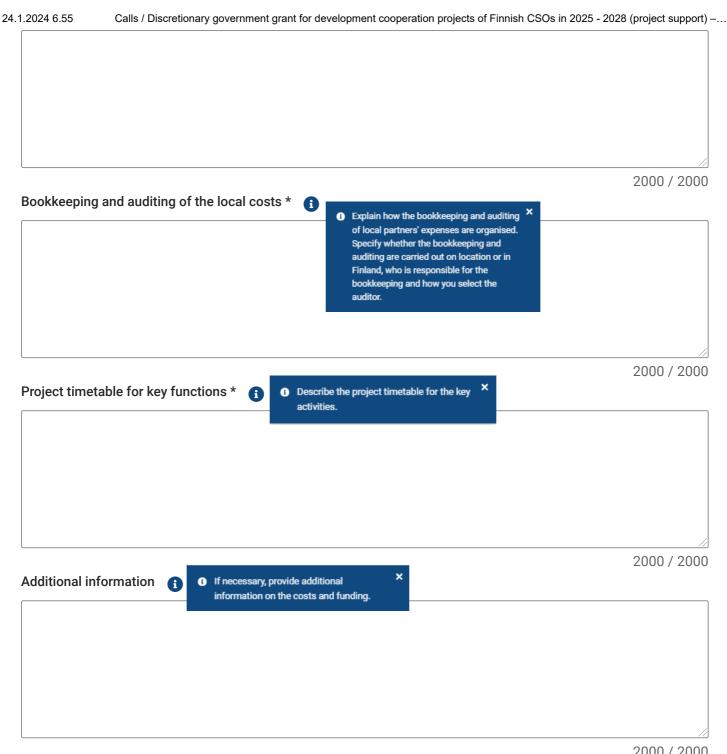

In reporting, work carried out by the government grant recipient's representative posted from Finland and/or project work carried out in Finland and/or donations of goods or services received from an non-ODA eligible country may be approved as voluntary work for the project.

Read more about how to define the fair value below the instructions.
